Mr. E. P. Lovejoy, a large dealer in general merchandise, and editor of the Wabaska Mangler, at Wabaska, Nevada says: "I have tried St. Patrick's Pills and can truthfully say they are the best I have ever taken or known used." As a pleasant physic or for disorders of the liver they will always give perfect satisfaction. For sale by Geo. C. Thaxter.

Change is one of the irresistible laws of nature, and fortunately the change is almost invariably for the better. As an instance of this, St. Patrick's Pills are fast taking the place of the old harsh and violent cathartics, because they are milder and produce a pleasanter effect, besides they are much more beneficial in removing morbid matter from the system and prevent ague and other malarious diseases. As a cathartic and liver pill they are almost perfect. For sale by Geo. C. Thaxter.

What on Earth

Is the reason people will not, cannot, or do not see any difference in cheap nos trums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing. W. Coppered Himself.

If there is anybody in the State who does not know Lem Allen, we will state that he is one of the most devout church members, and the greatest lover of fast horses that lives in Churchill county. He was also a member of the last Legislature, and his love for fast stock led him to sometimes try and drive a stud poker tandem. Well, Lem has been taking in the State Fair. He brought from Churchill county an alfalfa fed colt which was fast, but nobody seemed to be able to ride the animal and keep him on the track. Lem entered him in one or two races at Reno, but he flew the track, and therefore lost. He finally brought the colt to Carson, entered him in a race, and getting on the outside bet \$150 against him. The animal was quite a favorite to those who did not know of his bucking propensities, and Lem had no trouble in getting money on him. He never dreamed but what the colt would fly the track before the first quarter, but you can judge of his surprise when the animal came in ahead in the race by several lengths. The colt had taken a start and run away, the rider not being able to hold him, and for the first time in his life had followed the track without making a break.—Lyon County Times.

NO COMPROMISE.

THE MILLMEN AND RANCHERS FAIL TO AGREE.

The Millmen Announce War to the Knife.

On Sunday the meeting between the ranchers and millmen was held at Genoa. The object of the meeting was to see if some amicable settlement could be made between the mills and the ranchers respecting the water question. M. Cohn of this city was chairman of the meeting.

A PROPOSITION.

Mr. Frank Newlands, on behalf of the Sharon estate and through the mill attorneys William Woods and Tammor Coffin, made a proposition to take a decree for 6000 inches of water instead of 8000, and during the years of '90 and '91 give the ranchers the water until July 15th.

After this the mills would take all the water the year round and put up an equal sum with the ranchers to build storage reservoirs.

Hursh Harris advised the ranchers to decline the compromise and take the case to the Supreme Court of the United States.

Gen. Clarke also made a speech to the effect that the Supreme Court of the State had reversed the riparian decisions, and that the use of water for five years gave the rancher's prior rights.

After considerable talk both pro and con, the ranchers decided not to accept the terms offered by the millmen, and so the meeting adjourned.

The millmen will now begin suit against about one hundred ranchers on the Carson river, and the legal battle will be fought to the bitter end.

JOBBERY DOWNED.

How the Fair Directors Discontinued Fraud.

All true sporting men are delighted with the manner in which the Fair Directors protected the public from the scoundrels who try to work the pool box at Fairs.

There were several attempts to job the races and whoever the Association discovered the job the horses were not allowed to complete the race.

On Saturday, dozens of horsemen congratulated the society on the fact that it knew how to deal with these propositions.

A race was declared off Saturday because the judges had proof positive that the owners had agreed on the winner.

There were several other similar cases that Chamberlain is hunting evidence on, and if some of the scallawags think he is through with them, they will find themselves mistaken.

Already enough evidence has been obtained to rule them off all Association tracks for life. It is proposed to have fair racing at their Fair if it is possible and while the judges are not always able to obtain sufficient evidence to declare a race off or to disqualify a rider or driver, they will lend every endeavor to that end and make it warm for such work whenever they are able to do so.

The strong efforts made by the Directors to keep the black legs from working in on the races, has met with the endorsement of every honorable horseman and will result in a still larger attendance next year.

ALL SORTS.

A car load of sugar has just arrived at Geo. Davis'.

The Mint was running full blast yesterday on silver dollars.

Father Walsh left for Grass Valley, Cal., Sunday evening and will be absent for about two weeks.

Senator Williams has purchased Onda S., the trotting mare with a 2:35 record. He will use her for breeding purposes.

The District Fair Directors took in in the neighborhood of \$1,500 on the pool percentage. This was within \$12 of the entire pool percentage of the State Fair. Had not the last race been declared off the pool percentage here would have exceeded the State Fair by about \$20.

A Familiar Face.

During the past few days H. B. Loomins, an old time Nevada journalist connected with the News and Enterprise has been in this city. He is the agent of the Stockton and Gridly flour mills run by Geo. The Silver question as presented to the Cabinet recently ought to settle itself. The demand for small coin certificates is now from \$7,000,000 to \$8,000,000 monthly. There is only about 5,000,000 in silver dollars in the Treasury not covered by certificates. The Government has been coining the minimum required by law, \$2,000,000 a month. It may increase the coinage to \$4,000,000 as a maximum, and between these figures it can find a rate which will maintain the balance between supply and demand. There appears to be no need for legislation in this matter.—Bulletin.
